TO: ALL COUNTY WELFARE DIRECTORS
ALL COUNTY ADMINISTRATIVE OFFICERS

LETTER NO. 88-35

SUBJECT: EMERGENCY REGULATION CHANGES EFFECTIVE FEBRUARY 1, 1988

Attached is a final copy of the Veteran's Aid and Attendance regulation package which adopts Section 50772 of Title 22 California Code of Regulations (CCR) and amends Sections 50551.6 and 50507.

As described in All County Welfare Director's Letter 88-04, these regulations change the treatment of Veteran's Aid and Attendance (A&A) payments. For veterans and their dependents who receive Aid and Attendance and who are not in long term care (LTC), A&A payments will no longer be considered as income. These exempt payments are for attendant services which enable the A&A recipient to remain at home rather than in a facility.

The following are answers to frequently asked questions concerning A&A payments.

1. Question: Does LTC status occur if an individual is expected to remain in an acute care facility the second month after the month of admission?

Response: Yes. The definition of LTC in Section 50056 relates to inpatient medical care and not to a specific medical facility. Therefore, as discussed in ACWDL 88-04, the A&A payment will continue to be treated as income for ease of administration. The facility will receive the payment through the share of cost.

2. Question: How should A&A payments made to individuals who are residing in board and care be treated?

Response: They should be treated as though the individuals are living at home.

3. Question: How is the VA award treated in the case of applicants when there is no CA 5 in file which shows the correct amount of the A&A payment and the veteran has no award letter?

Response: The eligibility worker may try contacting the local Veteran's Administration (VA) office for verification. If the VA office cannot provide the information, the entire amount of the VA check should be counted as income (as in the past) to determine the correct share of cost. When the CA 5 is returned with the correct A&A amount, the county should readjust the share of cost for previous months.

4. Question: Is receipt of A&A to be coded on the Medi-Cal card?

Response: No. Although A&A payments are treated as third party liability, no special other health coverage coding is required on the Medi-Cal card nor does the county need to include the information on the DHS 6155 (formerly HRB 2A).

5. Questions: Should the county divide the income from aid and attendance between the LTC beneficiary and his/her spouse as required by Reese v. Kizer?

Response: No. The A & A payment is no longer treated as income; therefore, no division should be made.

If you have any questions regarding these changes, please contact Margie Buzdas at (916) 322-4129.

Sincerely,
